

ATPCO Industry Sub Code Guidelines

ATPCO is the official source of industry sub codes. Industry-defined codes are available for all carriers (or vendors) to use and have standard attributes (standard definition) defined by ATPCO. Additional sub code and attributes are available upon request. All published industry sub codes are available for use by any organization offering ancillary services regardless of whether the organization is filing their data through ATPCO's Optional Services product.

99x and 98x Industry Sub Codes

Industry sub codes that begin with 99 or 98 have been reserved for services that are not within the scope of the ATPCO Optional Services product.

Requesting a new industry sub code or attribute

Requests for new industry sub codes or supporting attributes may be sent to ATPCO via the official request form. When a request for a new industry sub code has been received by ATPCO, an evaluation of existing codes will occur to ensure that there is no overlapping of code definitions.

After the approval process, ATPCO will issue a Bulletin announcing the creation of the new code. By request of the industry, there is a 1-month statutory notice before the new sub codes may be filed within the ATPCO Optional Services application.

Cancellation of industry sub codes

It is expected that the cancellation of industry sub codes or attribute codes will be rare, but when they do occur, ATPCO will contact any carriers that currently have filed the code within the Optional Services application. After these sub codes have been re-filed, ATPCO will remove the codes from the application. However, the sub codes will remain on the published sub code list for a period of six months.

Reuse of industry sub codes

After the cancelled sub code has been removed from the published list after the six month period, an industry sub code will not be reused or reassigned until at least two years have passed.

ATPCO Optional Services Industry Sub Codes

The following is a list of the currently defined industry sub codes (also known as Reason For Issuance Sub Code) available for use in the Optional Services online application. The list also contains the recommended RFIC (Reason For Issuance Code) for each industry sub code. RFIC codes are defined at the end of this document. Industry Sub Codes beginning with 99 and 98 have been reserved and are not available for use in the ATPCO Optional Services online application.

To request additional sub codes, please complete the attached [form](#). For more information regarding Optional Services or Industry Sub Codes, please contact optionalservices@atpc.net.

Current version: **29DEC11**

Previous version: **17NOV11**

Changes from the previous version have been highlighted. Please note that the baggage sub code in yellow is available for use on 29 December 2011. The sub codes in green are available for use on 30 January 2012.
