- Reason For Issuance Sub Codes (RFISC) 98x and 99x are governed by IATA Resolutions. These are published in Resolution 722f, Attachment A. This document is available in the Toolbox of the electronic version of the *Passenger Services Conference Resolutions Manual*, which is available from IATA. For more information visit <http://www.iata.org/publications/Pages/pscrm.aspx>.
- Industry sub codes commencing with 98 or 99 are reserved for services that are not within the scope of the Optional Services product.

Optional Services Industry Sub Code Guidelines

ATPCO is the official source for Optional Services industry sub codes. All published industry sub codes and/or associated Group definitions are available for use by any organization offering ancillary services regardless of whether the organization is filing their data through ATPCO's Optional Services product.

- **Requesting a new Industry Sub Code**

A new Industry Sub code and/or associated Group definitions may be requested from ATPCO using the official [request form](#). Once received by ATPCO, existing sub codes and will be evaluated to ensure there is no overlap of existing sub code and group definitions.

Once approved, ATPCO will issue a Bulletin announcing the new sub code and/or group definition. As requested and agreed to by the industry; there is a 1-month statutory notice before the new codes may be filed within ATPCO's Optional Services application.

- Special characters, including the slash (/), hyphen (-), and period (.), are not allowed in the Commercial Name for Optional Services sub codes.

- **Cancellation of Industry Sub Codes**

Cancellation of industry sub codes or attribute codes is anticipated to be infrequent however, should this happen; carriers who reference any sub codes proposed for cancellation, in their filed data, will be contacted by ATPCO. Once these sub codes are re-filed, the cancelled sub codes will be removed from the online application however, they will remain on the published sub code list for a six month period.

- **Reuse of industry sub codes**

Once removed from the published list, after the six month period, an industry sub code will not be reused or reassigned until at least two years have passed.
