

A large, stylized number '50' in a dark blue color. The '5' is composed of a vertical line and a horizontal top bar, while the '0' is a simple circle. The background features abstract, flowing blue lines that create a sense of movement and depth.

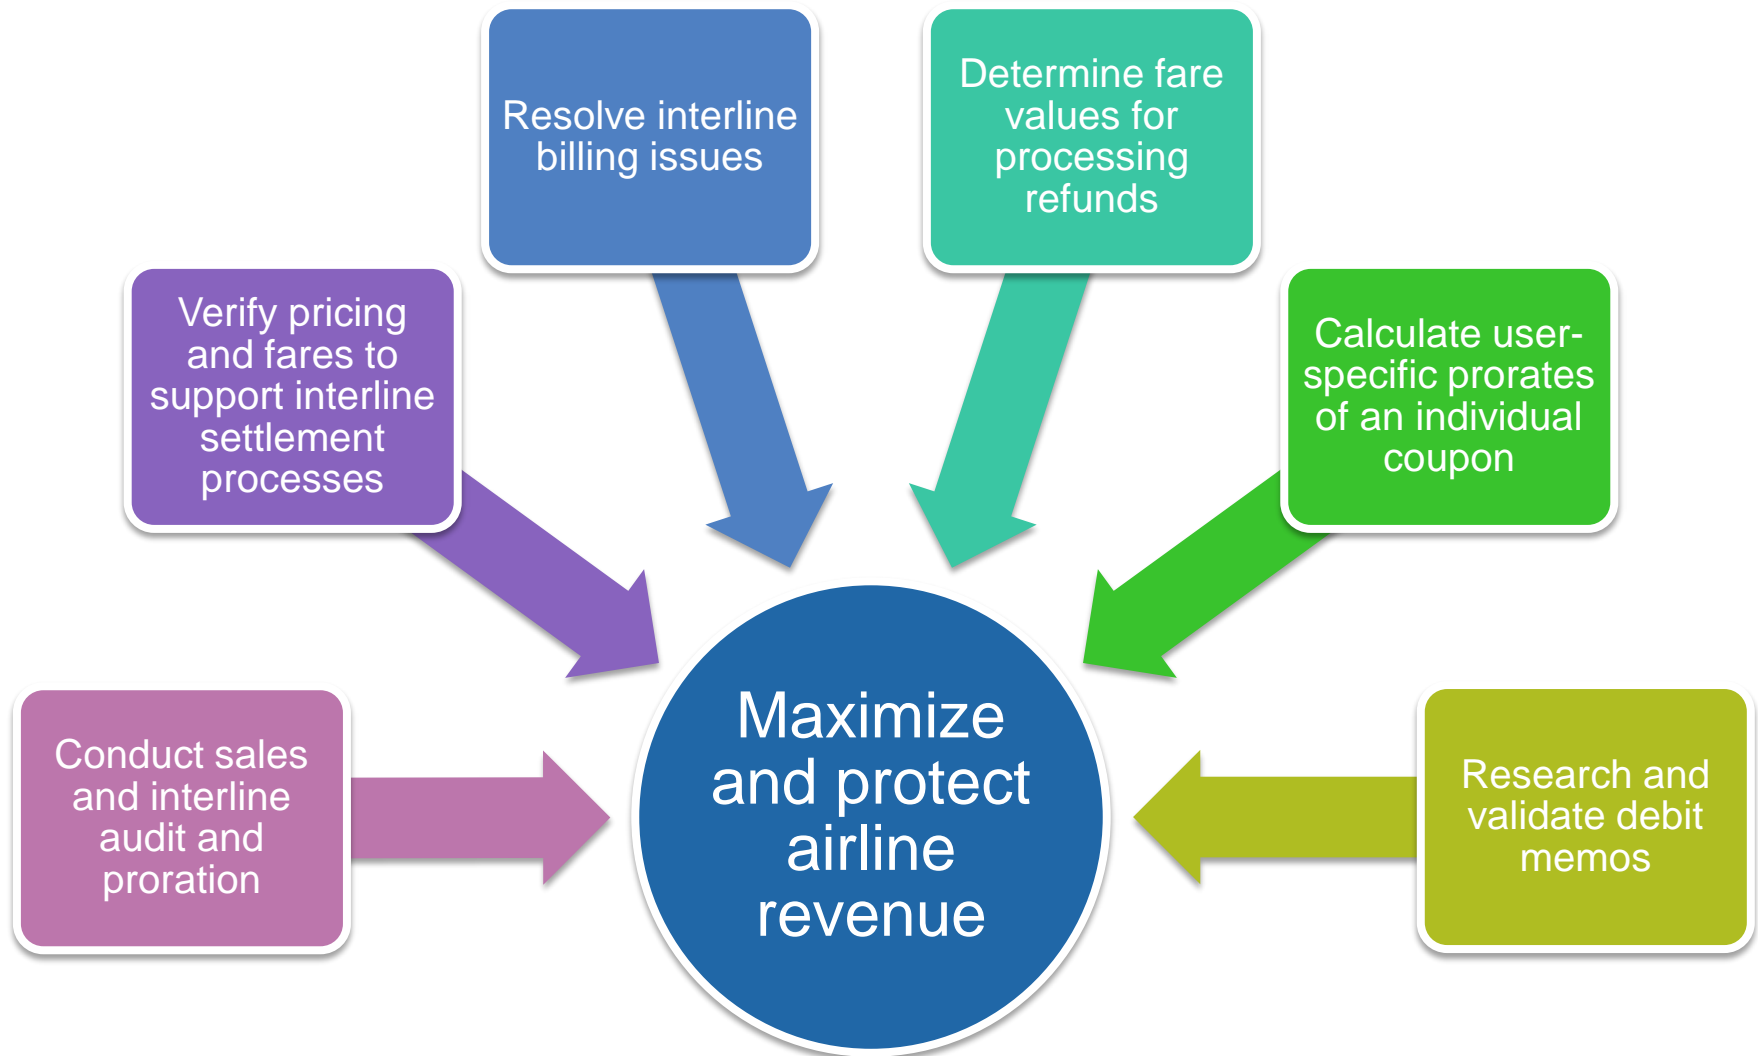

Five effective PIPPS features you need to know about

14 April 2015

Webinar Agenda

- Industry needs
- ATPCO solution overview
- Demonstration of five effective PIPPS features you need to know about
- ACH involuntary reroute calculation change
- Available education materials
- Question time!
- What's next

Industry needs

The solution

PIPPS is an
airline
industry-
trusted tool for
sales, interline
audit, and
proration

Over 20 years of
historical data

ACH, MPA, and SPA
proration functionality

Official ACH tool
for disputes

Intention

Provide education on PIPPS features YOU need to know about

- to perform your tasks more effectively!

Demonstration of five effective PIPPS features

- Hot keys for PIPPS in green screen
- Account Code, Agency Code, and Pseudo City display
- General Rules and Alternate General Rules text display
- Prorate Manual-Passenger (PMP) information requests
- Surcharge processing

Account code display

Demonstration of five effective PIPPS features

ACH involuntary reroute calculation change

Participants of the Airlines Clearing House voted in 2014 to modify the current Involuntary Reroute Calculator to use a percentage of the Weighted Mileage Factor instead of the local fare when determining the coupon value

These enhancements are effective in PIPPS beginning 1 April 2015. Any involuntary reroute calculation with a date prior to 1 April will continue to use the local fare to determine the coupon value

Available educational materials

Check out [PIPPS product page](#):

- New and updated product guides
 - PIPPS User Guide for PIPPS in green screen
 - Quick How-To Guide for PIPPS in FareManager
- How-to video demonstrations for PIPPS in FareManager and in green screen
 - How to use PIPPS to access historical data
 - How to prorate domestic fares
 - How to prorate international fares
