

How A&A can help you

Do you have...

An in-house or costly proration system,

A need to improve the quality of your proration results, or

High costs for interline rejections and correspondence?

Do you want to

- Minimize rejected interline billings
- Maximize the value of coupons you bill
- Minimize write-offs caused by over- and under-billings
- Leverage a world-class prorate value for your own sales so that you can simplify your proration system

And if you decide to agree with any interline partner to go “rejection free,” you can eliminate the cost of interline rejections when the first-time interline coupon value billing is considered final

Your solution could be

Validated Neutral Coupon Value

- It's the only industry neutral proration service, offered by two airline-owned organizations (ATPCO and ARC) and powered by Acceyla APEX
- It sends neutral coupon proration values at the time of sales reporting, with interlineable taxes and Interline Service Charge
- It bases proration on your Special Prorate Agreements, as well as industry-leading ACH and MPA methodology

For just USD 0.0725 per ticket*

*indicative pricing only

Are you...

An airline with an in-house proration system with a labor-intensive or costly invoicing process, or

An existing customer of the A&A Services solution?

You could

Enjoy all the value of Validated Neutral Coupon Value, and then lower costs even more by

- Automatically creating invoices to your interline partners based on coupons flown
- Fully integrating your billing process into IATA Simplified Interline Settlement (SIS)
- Accessing stored partner “own” prorates where bilaterally agreed, or where no Neutral Coupon Value is accessible, to maximize the number of automatically processed transactions and minimize manual touch

Your solution could be

Automated Outward Billing Validated Coupon Value

This solution offers all the features of Validated Neutral Coupon Value, plus

- The only automated invoicing process that truly integrates completely with IATA SIS
- Control of your outward billings, using the IATA SIS solution to invoice using neutral and partner own coupon values

For just USD 0.1475 for each neutral coupon and USD 0.075 for each of your own coupons*

Or maybe you...

Are satisfied with your proration system, but struggling with a labor-intensive or costly inward billing audit process.

Lower your costs by

- Using your own trusted coupon values to leverage an industry solution so that your partners bill you with more accurate values generating fewer disputes

Your solution could be

Automated Inward Billing Validated Own Coupon Value

This solution

- Sends your own system's trusted prorate results so that your partner can bill you more accurately
- Helps you control your inward billings, using IATA SIS to receive invoices using own prorate values that you can trust

For just USD 0.135 per coupon*
