

5. BSP/ARC Data Supplied to ATPCO

As an ISR participant, to get maximum benefit from the life cycle of the fare, you should supply your BSP and ARC data to the exchange. There are two ways to do this:

- supply the data yourself via secure FTP to ATPCO with filenames which ATPCO will provide to you through contact with rev-accounting@atpco.net
- request inet (for BSP HOT) and ARC (for ARC CAT) to send the data for you (already established): iinetcare@iata.org or carrierhelpdesk@arccorp.com

For each country you will be sending to ATPCO, enter your preference for the frequency of the BSP/ARC data report to you, either **daily (D)** or **non-daily (N)**.

ISO	Freq.	ISO	Freq.	ISO	Freq.	ISO	Freq.	ISO	Freq.	ISO	Freq.
