

ATPCO COMMUNITY PARTICIPATION

ATPCO's price structure recognizes the many benefits airlines receive as a result of doing business with ATPCO. There is a fixed base fee for access to ATPCO's many industry services and benefits (Community Access), and additional charges based on the volume of data stored with ATPCO (Occupancy) and the number of changes made (Activity). For full details regarding ATPCO's industry services, airline benefits, and software access included in ATPCO Community Participation, please refer to the ATPCO Community Participation FAQs.

Code: COMPP

Community Access

Monthly fee of USD 500.

Occupancy

Occupancy is determined by the percentage of each airline's data within ATPCO's database, including fares, rules, carrier-imposed fees, branded fares, optional services, and number of aircraft subfleets and cabin configurations. Airlines are invoiced for one-twelfth of their annual assessment each month. For details on how Occupancy is calculated, please refer to the ATPCO Community Participation FAQs.

Activity

Activity is based on the number of changes made to the data covered by Occupancy, not including aircraft and cabin configuration information. Airlines are invoiced for one-twelfth of their annual assessment each month. For full details on how Activity is calculated and invoiced, please refer to the ATPCO Community Participation FAQs.

Occupancy and Activity Surcharge

Significant surges in the volume or number of changes result in unexpected increased data processing costs for ATPCO. To account for the unexpected costs, an Occupancy surcharge, Activity surcharge, or both will be applied to customers with extraordinary volume or activity. For more information on these surcharges, please refer to the ATPCO Community Participation FAQs.

Custom Reports

Ad Hoc Reports

Minimum charge of USD 265.00 per report, plus an additional hourly fee of USD 150 to compile and prepare any details in the report.

General Rules (text) Subscription

Copies of tariffs can be downloaded by ATPCO and then e-mailed for viewing and printing for a fee of USD 375.00 per carrier/tariff requested. The downloaded tariffs contain all General Rules applicable in the requested tariff. Any pending rule changes at the time of the download will be reflected on the tariff pages with Word's Simple Markup feature.

Custom Projects

ATPCO offers hourly project rates for high volume or complex data input work. A minimum charge of USD 150.00 per hour applies in lieu of the normal data input record/sequence charges. Contact Customer Service for details.

OTHER CHARGES

Maximum Permitted Mileage Charge

ATPCO subscribes to the Maximum Permitted Mileage table published annually by IATA. All airlines that file International and AllFares data to ATPCO's database share the cost of this subscription equally. Customers are invoiced for their share of the subscription in the second quarter of each year.

Currency Application

International airlines participating in General Rule 145—Currency Applications will be invoiced an annual fee of USD 100 for the quarterly revisions to this general rule.

DATA SUBSCRIPTIONS FOR INTERNAL USE

Use of ATPCO data for analysis or in conjunction with decision support systems, but not for revenue-generating pricing and shopping.

Content Management APIs

Monthly fee of USD 100. Allows customers to create and manage content on ATPCO's database via an API.

Limited Subscription

All prices are monthly.
